FIRM OVERVIEW

Founded	2012
HQ	Menlo Park, CA · San Francisco, CA
AUM	\$750M total AUM across all funds
Dry Powder	\$11.25M remaining
Fund III Close	Fund VI: ~Jun 2025 (\$400M est.); Amplify Bio Fund I: Jun 5, 2025 (\$200M)
Stage	Seed, Series A Seed 33% · Series A 36% · Series B 20% · Series C 8% · Series D+ 3%
Check Size	\$1M–\$10M
Geography	United States (Bay Area-focused)

LAST 10 INVESTMENTS

Company	Sector	Note	Description
Niteshift	Productivity Software	Seed, \$7M — 10 Jun 2026	Cloud infra for AI coding agents by ex-Datadog engineers; runs Claude Code & Codex in configured dev environments — bets against AI vendor lock-in.
Reactor	Dev Tools	Series A, \$59M — 4 Jun 2026	Developer platform for real-time AI video & world models; unified SDK/API for sub-50ms interactive AI apps. Ex-Apple founders; Lightspeed-led.
Waypoint Bio	Drug Discovery	Series A, \$20M — 28 May 2026	Drug discovery platform backed via Amplify Bio Fund I; generating early revenue. Lead Amplify Bio investor Elliot Hershberg overseeing.
Arito AI	AI/Prod Software	Seed, \$6M — 21 May 2026	Agentic analytics platform for finance and revenue teams; natural-language access to financial systems, auto-updating dashboards, and AI-driven alerts — no complex integrations required. Amplify-led round.
Hightouch	Data/Analytics	Series D, \$150M — 29 Apr 2026	Reverse-ETL & composable CDP syncing warehouse data to 200+ CRMs, ad platforms, and ESPs; expanding into agentic marketing with AI identity resolution.
Avoca	AI/Prod Software	Series B, \$125M — 27 Apr 2026	AI voice automation for home services (HVAC, plumbing, roofing); books jobs and follows up on estimates 24/7. \$1B unicorn; Amplify seed backer.
Moonbounce	Productivity Software	Seed, \$12M — 5 Apr 2026	Real-time multimodal AI policy engine; enterprises control AI behavior at runtime, not just deployment. Ex-Meta engineers; Amplify-led seed.
ProsParity	Financial Services	Series A, \$0.35M — 30 Mar 2026	EV financing platform enabling seamless credit flow to buyers, fleet operators, and dealers in India. Small early-stage check from Amplify.
Temporal	Dev Tools/Infra	Series D, \$300M — 4 Feb 2026	Durable Execution platform for fault-tolerant orchestration; code survives crashes in distributed systems. \$5B valuation; a 16z-led Series D.
InfiniTopes	Drug Discovery	Seed, \$35M — 21 Jan 2026	Phase 2 clinical-stage drug discovery company; Amplify Bio seed investment led by Elliot Hershberg.

SECTOR FOCUS

Developer Tools & Infrastructure	AI / ML & Data	Cybersecurity
• Back deeply technical founders — engineers, researchers, data scientists — who have experienced a problem viscerally and are compelled to spend the next decade solving it • First-check conviction at seed and Series A in next-gen developer tools, data infrastructure, AI/ML platforms, and security that become foundational enterprise layers • Amplify Bio extends into life sciences: scientists-turned-founders building AI-driven drug discovery platforms • 13-year track record of “lunatic fringe” bets: 14 unicorns, 5 IPOs, 50 acquisitions including Datadog, Splunk, and Fastly		

JHTV PORTFOLIO MATCHES

CurveAssure Evan Haas AI video platform for MSK assessment — no hardware or downloads. Software-only AI captures clinical-grade patient data at a fraction of the cost; raising \$1.5M seed. Pure vertical AI in healthcare aligns with Amplify's AI/ML thesis.	Semaphor Tito Porras, Mathias Unberath & Axel Krieger Autonomy runtime & SDK for surgical robotics — enables real-time automation and customizable integration for advanced robotic procedures. Raising \$8M seed. Developer tools at the intersection of AI and physical systems; textbook Amplify infrastructure bet.
BrainBox Donna Edmonds Multimodal AI diagnostic platform for TBI & concussion — blood biomarkers + digital cognitive test + AI algorithm. FDA Breakthrough Status; 91% sensitivity in 2,200+ patient study; raising \$10M Series B. Fits Amplify Bio's AI diagnostics thesis.	Oncospace Todd McNutt & Praveen Sinha Cloud-native AI analytics for radiation oncology — predictive treatment planning via ML, enabling personalized, consistent care. FDA cleared; ISO 27001 certified; Series A at \$4.8M. AI data platform in healthcare squarely in Amplify Bio's orbit.

WHO WE ARE MEETING WITH

Sunil Dhalilal | General Partner & Founder

Founded Amplify in 2012 after 14 years as GP at Battery Ventures; 27+ years in VC. Forbes Midas List 2011 & 2020. Backed Splunk, Datadog, Fastly. Georgetown B.S. Backs “lunatic fringe” technical founders in infrastructure and developer tools.

Mike Dauber | General Partner

Joined Amplify in 2014 from Battery Ventures. Former engineer turned VC (U. Michigan, Wharton MBA). Key investments: Temporal, Chainguard, Scribe, SiMa.ai. Champion of founder-market fit at seed.
