Staff: Director of Research Simon Barnett, B.S. Chemical & Biomolecular Eng., JHU. **Portfolio:** Enveda Bio VP Kendra Hightower, Ph.D. (JHU); Monte Rosa CBO Jullian Jones, Ph.D. (JHU). **No GP-level ties — Goulburn is Monash/Weill Cornell, not Hopkins.**

FIRM OVERVIEW

Founded	2022
HQ	New York, NY & San Francisco, CA
AUM	\$850M
Dry Powder	\$238.8M
Fund III Close	December 2024
Stage	Seed to Series D (stage-agnostic) Seed/Early 34% · Series A 28% · Series B+ 38%
Check Size	\$1M – \$30M+
Geography	United States (NY, SF-based); global portfolio

SECTOR FOCUS

Drug Discovery Platforms	Life Sciences Software & Infra	Biotech × AI/ML
• Back companies at the nexus of biology and compute where 25–40% of the team are computational biologists, ML engineers, or roboticists working alongside chemists and biologists. • Invest in platforms generating proprietary biological datasets—drug discovery, genomics, metabolomics—where data scale creates defensible moats. • Support lab tools, instruments, and automation that digitize the wet bench and accelerate the drug development cycle. • Stage-agnostic from incubation through public companies; check sizes from \$1M to \$30M+, targeting ~20 companies per fund.		

LAST 10 INVESTMENTS

Company	Sector	Note	Description
Congruence Therapeutics	Drug Discovery	Series A, \$39.5M — Mar 2026	AI-powered small molecule drug discovery platform targeting precision oncology.
Tamarind Bio	Discovery Tools	Series A, \$13.6M — Feb 2026	Biotech discovery tools enabling development of genetic medicines and biologics.
Chai Discovery	Discovery Tools	Series B, \$130M — Dec 2025	Open-source AI foundational model for protein structure and drug interaction prediction.
Automata	Lab Automation	Series C, \$46.6M — Nov 2025	Robotic lab automation platform that digitizes wet lab workflows end-to-end.
NewLimit	Biotechnology	Series C, \$45M — Oct 2025	Epigenetic reprogramming platform targeting cellular aging and age-related disease.
BioRender	Design Software	Later Stage VC — Oct 2025	Scientific visualization platform used by researchers globally to create biological figures.
Modal Labs	Cloud Infra	Series B, \$87M — Sep 2025	GPU cloud infrastructure for running AI/ML training and inference at scale.
Odyssey Therapeutics	Biotechnology	Series D, \$213M — Sep 2025	ML-driven precision medicine company for oncology and inflammation.
Enveda Biosciences	Drug Discovery	Series D, \$150M — Sep 2025	AI metabolomics platform discovering drugs from natural compound diversity.
Fiveonefour	Lab Software	Series A, \$17M — Sep 2025	AI-powered lab intelligence software for biotech and pharma R&D.

JHTV PORTFOLIO MATCHES

Astropath Alex Szalay & Janis Taube Multispectral tissue imaging + AI platform generating proprietary single-cell datasets for biomarker discovery. Active SRA with AstraZeneca—fits Dimension's proprietary biological data thesis.	28bio Alif Saleh, Greg Kading & David Weiner AI + lab-grown brain organoids at scale for high-throughput drug target discovery. Already adopted by top pharma—exactly the biology-compute convergence Dimension backs.
Infinity Bio Ben Larman DNA-barcoded antigen library platform for antibody reactivity profiling (MIPSA tech). Commercial-stage biopharma infrastructure for immuno-oncology and precision medicine.	Biolinco Kent Rapp High-throughput DNA barcode screening platform that identifies optimal cell lines for biologic drug manufacturing—cutting manufacturing costs by up to 50%. Early-stage biotech infrastructure play aligned with Dimension's manufacturing & commercialization focus.

WHO WE ARE MEETING WITH

Nan Li | Co-Founder & Managing Partner

First-generation immigrant, grew up in Detroit. Previously MD at Obvious Ventures (Frontier Tech), investor at Innovation Endeavors (Eric Schmidt), Bain Capital Ventures, and Microsoft. Leads Dimension investments at the interface of computer science and life sciences—computational drug discovery and biological data platforms.

Zavain Dar | Co-Founder & Managing Partner

Prior GP at Lux Capital and former computer scientist/founder. Led investments in Recursion (RXRX), Enveda Biosciences, Hugging Face, and Runway.
