Investments TTM (PitchBook)

Two documented JHU ties: (1) Lux co-founder Robert Paull was founding CEO of Kala Pharmaceuticals, a JHU nanotech spinout (Prof. Hanes' lab) co-founded by Lux in 2009; (2) Lux backed Thrive Earlier Detection, a Vogelstein Lab/JHU spinout acquired by Exact Sciences for \$2.15B (2020).

FIRM OVERVIEW

Founded	2000
HQ	New York, NY · Menlo Park, CA
AUM	\$7.0B total AUM across all funds
Dry Powder	\$414M remaining in Lux Ventures VIII
Fund III Close	April 13, 2023 (\$1.15B)
Stage	Seed, Series A, Series B Seed/Early 21% · Series A 30% · Series B+ 47%
Check Size	\$100K–\$100M (typical early: \$1M–\$20M)
Geography	United States (NY & Bay Area-focused)

SECTOR FOCUS

Deep Tech & Defense	Life Sciences & Biotech	AI, Robotics & Energy
---------------------	-------------------------	-----------------------

- Back founders tackling problems most thought would never work — frontier science that becomes foundational if it succeeds
- First-check in deep tech: defense/aerospace, advanced manufacturing, embodied AI, energy, and genomics
- Co-found companies via Lux Labs (20+ de novo) when no founder exists yet for a critical technology gap
- \$7B AUM with 25-year track record of exits to Amazon, Cisco, Databricks, J&J, Meta, and Palo Alto Networks

LAST 10 INVESTMENTS

Company	Sector	Note	Description
Flourish	Semiconductors	Early Stage VC, \$500M — Jun 2026	Application-specific silicon company for next-gen compute.
Helion	Energy Production	Series G, \$465M — Jun 2026	Nuclear fusion energy company developing a pulsed field-reversed configuration reactor targeting commercial fusion power.
Layup Parts	Industrial / Aerospace	Series A, \$42M — Jun 2026	Automated composite manufacturing platform for aerospace and defense structural parts, replacing manual layup with robotics.
Impulse Space	Aerospace & Defense	Series D, \$500M — Jun 2026	In-space propulsion and orbital transfer vehicles enabling on-demand payload delivery to any orbital destination.
Observable Space	Aerospace & Defense	Series A, \$90M — May 2026	Earth observation satellite constellation providing high-frequency, high-resolution geospatial intelligence for defense and commercial clients.
Waypoint Bio	Drug Discovery	Series A, \$20M — May 2026	AI-driven drug discovery platform using biological pathway modeling to identify and validate novel therapeutic targets faster.
Cognition	AI / Software	Series D, \$1B — May 2026	Autonomous AI software engineering agent (Devin) that plans, writes, and debugs full codebases end-to-end.
Stord	Supply Chain	Series F, \$250M — May 2026	Cloud-native fulfillment platform integrating warehousing, transportation, and software.
Armada	Edge Computing	Series B, \$230M — May 2026	Distributed edge compute deploying AI at the point of need for defense and industrial clients.
1001 AI	Business AI	Series A, \$30M — May 2026	Enterprise AI platform automating workflows across finance, operations, and customer functions.

JHTV PORTFOLIO MATCHES

Semaphor <i>Evan Haas</i> Tito Porras, Mathias Unberath & Axel Krieger Autonomy runtime & SDK for surgical robotics — enables real-time AI automation and customizable integration for advanced robotic surgical systems. Raising \$8M seed. Squarely in Lux's robotics and embodied intelligence thesis.	BrainBox <i>Donna Edmonds</i> Multimodal AI diagnostic platform for BTI & concussion combining blood biomarkers, digital cognitive testing, and machine learning. FDA Breakthrough Status; 91% sensitivity in 2,200+ patient study; raising \$10M Series B. Fits Lux's frontier health tech and deep science thesis.
CurveAssure <i>Evan Haas</i> AI video platform delivering clinical-grade MSK assessment with no hardware or downloads — software-only capture at a fraction of traditional cost; \$500K+ ARR; raising \$1.5M seed. Lux's AI-meets-clinical-data thesis in a capital-light model.	Oncospace <i>Todd McNutt & Praveen Sinha</i> Cloud-native AI analytics platform for radiation oncology enabling predictive, personalized treatment planning via machine learning across patient populations. FDA cleared; ISO 27001 certified; Series A. Deep tech data infrastructure for precision cancer care.

WHO WE ARE MEETING WITH

	Peter Hébert Partner & Co-Founder Led Lux since 2000. Exits: Auris Health (J&J, \$6B), Luxtera (Cisco, \$660M), Matterport (CoStar, \$2.1B). Created Lux Health + Tech and Nasdaq NQHTC Index. Cum laude, Syracuse University.
	Josh Wolfe Partner & Co-Founder Co-founded Lux 2000; 20+ companies via Lux Labs. Cornell alum & published scientist. Key bets incl. Anduril, Cognition, HuggingFace.
